BOTANICAL ACTIVES

Aloe vera (Aloe barbadensis):

Aloe vera is one of the most complete cosmetics actives. With the action of natural nutrients, minerals, vitamins, amino acids and enzymes it stimulates cell regeneration to repair damaged tissues. It is an excellent enhancer in protective preparations. It has revitalizing properties, moisturizing, soothing and refreshing actions.

Sweet almond oil (Prunus amygdalus dulcis):

Sweet almond oil has emollient, softening and moisturizing properties. Sweet almonds are known to have a demulcent effect. Topical application acts favoring tonicity and elasticity of the skin.

Extract of oats (Avena sativa):

Skincare products containing oats avoid dehydration by creating a thin layer on the skin that prevents water evaporation. Thanks to a system of natural micro-sponges, emollient and moisturizing substances exerting an effect of restructuring and protecting the skin.

Coconut oil (Cocos nucifera):

Is an abundant source of fatty acids that are uniquely formed to deeply moisturize, hydrate, and condition the skin. Rich in polyphenols and vitamins A, C and E, coconut oil is a potent anti-ageing nutrient promoting collagen production and deeply penetrating the skin to promote lasting hydration. Coconut oil's anti-microbial properties make it effective in purifying the skin and in the treatment of acne breakouts.
