BOTANICAL ACTIVES

Aloe vera (Aloe barbadensis):

Aloe Vera is one of the most complete cosmetics actives. With the action of natural nutrients, minerals, vitamins, amino acids and enzymes it stimulates cell regeneration to repair damaged tissues. It is an excellent enhancer in protective preparations. It has revitalizing properties, moisturizing, soothing and refreshing actions.

Betaine (Beta vulgaris):

Primarily functions as a humectant and anti-irritant in cosmetic products. Improves the production of collagen and hair growth within the hair's key growth cycle.

Jojoba oil (Simmondsia chinensis):

An extract from the seed of the Jojoba tree. Although oil like in consistency, it is actually a wax ester most similar to human sebum. Apart from its excellent action that provides deep hydration and softness, it has special feature that makes it essential for deep hydration.

Extract of Hibiscus (Hibiscus sabdariffa):

Hibiscus contains healing properties for the skin, which helps eliminate acne and blemishes. Hibiscus extract also soothes inflammation and acts as an excellent moisturiser. It contains ingredients with high antioxidant activity, reason why it has high anti-aging activity since it captures the free radicals that are the cause of the aging

Extract sage (Salvia officinalis):

Sage extract regulates the amount of fat produced by the sebaceous glands of the skin, leaving it clean after application. It has antibacterial, astringent and calming actions.
