

DEODORANT CREAM

SVITAL YKTAREYDIRS KREM

castor oil – shea butter – sage

50 ml | 1,7 fl.oz

GROUP
BALMS & SALVES BS | 6150

PRODUCT

This pure, active, all-natural, aluminum free deodorant is blended with nourishing and softening shea butter, jojoba- & castor oil and candelilla- & beeswax. Vit E is high in antioxidants. Bicarbonate and natural essential oils deliver very effective and long lasting freshness. The active substances neutralizes odor-forming bacteria without closing the pores. The natural skin flora are retained. Sage is known for its antimicrobial, astringent and anti-inflammatory properties, making this deodorant a perfect post-shaving treat.

BEAUTY BENEFITS

This gentle deodorant is a blend of selective ingredients which ensures long lasting freshness whilst gently nourishing your skin. The cream offers reliable and lasting protection against unpleasant odors.

APPLICATION

Smooth a fingertip-size amount onto underarm on clean skin. Allow cream to absorb completely before dressing. In colder weather, this product may solidify a little and will need warming between fingers in order to be applied properly. Can be used after shaving. For all skin types, gender neutral.

BOTANICAL ACTIVES

Coconut oil (Cocos Nucifera Oil):

Coconut oil has antiseptic properties. Provides skin tone, protection, softness and youth thanks to its re-structuring action. It also softens the skin layers leaving the skin clean and beautiful.

Castor oil (Ricinus communis Seed Oil):

It is a valuable ally thanks to its regenerative power and its soothing properties. It's also very known for its antimicrobial and anti-inflammatory properties. Castor oil is also rich in fatty acids. These can enhance smoothness and softness when applied to skin.

Vitamin E (Tocopherol):

Vitamin E has many properties, but it stands out as being known as the vitamin of youth and beauty. It is an antioxidant that protects cells from all external aggression such as pollution, pesticides and stress, the main cause of premature aging. Vitamin E also contributes significantly to the production of energy.

Shea butter (Butyrospermum parkii):

Shea butter has moisturizing, emollient and skin protectant properties. It is a powerful moisturizing and very nutritious agent. Thanks to the high concentration of unsaturated fatty acids, it's a natural cell regenerator with great soothing and re-structuring properties to the skin providing greater firmness and softness.

Jojoba oil (Simmondsia chinensis Seed Oil):

Apart from its excellent emollient action that provides deep hydration and softness, it has a special feature that makes it essential for deep hydration of the corneum stratum because it creates a protective lipid layer non-fat, which provides a similar effectiveness to the mineral oil.

Extract of Sage (Salvia officinalis):

Sage extract regulates the amount of fat produced by the sebaceous glands of the skin, leaving it clean after application. It has antibacterial, astringent and calming actions.

Baking soda (Sodium Bicarbonate):

This white natural mineral helps regulate the pH of the skin and consequently neutralizes odors due to sweating. Sodium Bicarbonate is also a moisture absorber which naturally prevents excessive sweating by limiting the growth of odor producing bacteria.

INGREDIENTS:

Cocos Nucifera Oil*, Sodium Bicarbonate, Coco-Caprylate/Caprinate, Butyrospermum Parkii Butter*, Cera Alba*, Zea Mays Starch, Candelilla Cera, Ricinus communis Seed Oil*, Simmondsia chinensis Seed Oil*, Tocopherol, Salvia officinalis Oil*, Benzyl Alcohol, Glyceryl Caprylate, Glyceryl Undecylenate, Limonene, Linalool. (* ingredients from certified organic farming)
