

TAN MAXIMISER

Vit. E – wild carrot oil – rosehip oil

100 ml | 3,4 fl.oz

GROUP
BATH & BODY BB | 42100

PRODUCT

This Tan Maximiser prolongs your tan up and instantly calms sun-exposed skin. Formulated with carotenoids and natural mineral pigments to intensify and promote melanin production and prolong your sun-kissed complexion. Camellia, sunflower and macadamia oil provide your skin with essential fatty acids to nourish and hydrate. Due to its large content of vitamin E and rosehip oil it protects the skin and fights free radicals while providing radiant healthy skin.

BEAUTY BENEFITS

Love your sun-kissed golden tan? What if you could prolong it for an endless summer sensation? Our Tan Maximiser prolongs your tan keeping it luminous and even. It also hydrates, soothes and helps repair your skin, with sensorial textures and natural-origin ingredients. We're bringing the golden hour glow to you, all year round!

APPLICATION

Apply to face and body after sun exposure to soothe skin and enhance tanning. This oil in gel formula melts into an oil on contact with the skin to give comfort without leaving a greasy or sticky finish. Shake before use as natural ingredients may separate.

BOTANICAL ACTIVES

Wild carrot oil (Daucus carota sativa root extract):

Wild carrot oil has a high content in carotenoids and vitamin C which acts as a photo-protective shield. It also combats and prevents oxidative stress caused by blue light, either natural or produced by electronic devices with screens. It has a high beta-carotene content (provitamin A), which is transformed by the body into vitamin A, active in growth, vision, immune defences, ageing and wrinkles. It has antioxidant and softening functions. It revitalizes and improves general skin tone.

Sunflower seed oil (Helianthus annuus): Particularly beneficial for dry, dehydrated, or environmentally compromised skin because its linoleic acid content helps skin synthesize its own lipids (fats), including ceramides, visibly repairing its barrier and leading to smoother, healthier-looking skin. Sunflower seed oil also has a natural calming effect on skin, so can be helpful for reducing signs of skin stress or irritation. In fact, research on people with atopic dermatitis has shown that topical sunflower oil is a viable ingredient to alternate with topical steroids normally prescribed to control symptoms of this skin disorder.

Sweet almond oil (Prunus amygdalus dulcis):

Sweet almond oil has emollient, softening and moisturizing properties. Sweet almonds are known to have a demulcent effect. Topical application acts favoring tonicity and elasticity of the skin.

Rosehip oil (Rosa canina Fruit oil):

Also called the flower of youth, is an oil rich in polyunsaturated essential fatty acids which gives important properties of tissue regeneration of the skin.

Camellia oil (Camellia oleifera):

Tea seed oil moisturizes the skin and prevents the signs of aging. It's low in saturated fats, contains lot's of vitamin E and other antioxidants.

Macadamia oil (Macadamia Ternifolia):

Macadamia oil is a light, no feeling-fat oil that is fast absorbed by the skin. It has softening and soothing properties, is rich in antioxidants which helps to prevent the signs of aging of the skin.

Coconut oil (Cocos nucifera oil):

It has antiseptic properties. It gives the skin tonicity, protection, softness and youth thanks to its re-structuring action. It also softens the skin layers leaving skin clean and beautiful.

Clary Sage extract (Salvia Sclarea extract): the extract from the clary sage plant (not to be confused with common sage leaf) has antioxidant properties. The main antioxidants in clary extract come from the seeds, and include vitamin E, lutein, and various carotenoids.

Thyme (Thymus vulgaris flower/leaf extract): participates in the formation of elastin (a protein that provides resistance to tissues), which makes it a good partner to mitigate body flaccidity. It has regenerating and toning properties.

Natural Mica: Micas are natural ingredients of mineral origin. Their natural shine brings great radiance to the skin and a completely healthy glow effect. These minerals are the natural alternative to plastic particles derived from petroleum, the combination of these natural pigments give a golden tone that magically blends with skin.

Vitamin E (Tocopherol): Vitamin E has many properties, but it stand out as being known as the vitamin of youth and beauty. It is an antioxidant that protect cells from all external aggression such as pollution, pesticides and stress, the main cause of premature aging. Vitamin E also contributes significantly to the production of energy.

INGREDIENTS

Prunus amygdalus dulcis Oil**, Helianthus Annuus Seed Oil**, Silica, Mica, Macadamia ternifolia Seed Oil, Citrus aurantium Bergamia Peel Oil, Tocopheryl Acetate, Hydrogenated Lecithin, Camellia oleifera Seed Oil**, Cocos Nucifera Oil**, Rosa canina Fruit Oil**, Beta-Carotene, Daucus Carota Sativa Root Extract, Daucus Carota Sativa Seed Oil, Tocopherol, Ascorbyl Palmitate, Thymus vulgaris Flower/Leaf Extract, Salvia officinalis Leaf Extract, Glycerin, Aqua, Potassium Sorbate, Sodium Benzoate, Limonene*, Linalool*, Geraniol*, Citral*, C177491, C177891.
