PRODUCT

A protective, high antioxidant serum that boosts collagen levels to reveal radiant skin. Formulated with the powerful trio of Vit. A/C/E, providing the skin with antioxidant protection against free radicals and external environmental factors. These anti-aging ingredients help to reduce the appearance of wrinkles and dark spots, clarifies and brightens the complexion.

BEAUTY BENEFITS

This serum provides the skin with antioxidant protection against free radicals and environmental damage. The multivitaminic combo promotes collagen synthesis and brightens skin tone. This antioxidant-rich serum prevents inflammation and slows down the ageing process by protecting the skin from free radical damage triggered by pollution and other external aggressors.

APPLICATION

Apply 2-4 drops in the evening onto cleansed face and massage gently. Wait for the serum to fully absorb and follow with moisturizers and oil treatments to lock all the good stuff in and improve the effects of the serum. Keep away from direct solar exposure and use sun protection for better results. Do not combine with other retinoids or direct acids to avoid irritation.

BOTANICAL ACTIVES

Aloe vera (Aloe barbadensis):

Aloe Vera is one of the most complete cosmetics actives. With the action of natural nutrients, minerals, vitamins, amino acids and enzymes it stimulates cell regeneration to repair damaged tissues. It is an excellent enhancer in protective preparations. It has revitalizing properties, moisturizing, soothing and refreshing actions.

Multivitaminic combo (Vitamin A/E/C):

Multivitaminic combo of vitamins A/C/E will provide all the benefits of these vitamins and their effect will be increased as they are liposomated, which gives them greater stability, powerful synergy and therefore greater effectiveness. Vitamins A,C and E work together to keep each other stabilized and able to exert their benefits in skin longer.

- **Vitamin A (Retinyl palmitate):** Retinyl palmitate is a combination of retinol (pure vitamin A) and the fatty acid palmitic acid. It is known as the gold standard in the skincare industry as an ingredient for reducing the signs of premature skin ageing. It has the power to accelerate skin renewal, fade wrinkles, fine lines and dark spots, and create firmer, smoother and more even skin. In addition, retinol can also help reduce the appearance of acne by assisting in the prevention of pore blockages caused by dead skin cells.
- **Vitamin C (Ascorbyl palmitate):** Ascorbyl palmitate is a stable, oil-soluble form of vitamin C that is made by combining ascorbic acid with a fatty acid known as palmitic acid. Vitamin C offers great benefits, such as improvement of uneven skin tone, fine lines, and boosting skin's antioxidant supply.
- **Vitamin E (Tocopherol):** Vitamin E has many properties, but it stand out as being known as the vitamin of youth and beauty. It is an antioxidant that protect cells from all external aggression such as pollution, pesticides and stress, the main cause of premature aging. Vitamin E also contributes significantly to the production of energy.

Glycerin: Glycerin is a skin-replenishing and skin-restoring ingredient, meaning it is a substance found naturally in skin, helping to establish normal balance and hydration. It's one of the many substances in skin that helps maintain a healthy look and feel, defending against dryness and working to maintain skin's moisture level. Essentially, glycerin is a master at hydration, and works best when combined with other replenishing and emollient ingredients.

INGREDIENTS

Aloe barbadensis Leaf Juice**, Glycerin**, Maltodextrin, Aqua, Retinyl Palmitate, Ascorbyl Palmitate, Tocopheryl Acetate, Xanthan Gum, Pentylene Glycol, Lecithin, Citric Acid, Benzyl Alcohol, Potassium Sorbate, Sodium Benzoate. (**certified organic)
