---

- **Brightens skin**
- **Stimulates skin regeneration**
- **Protects against dark spots**

15 ml | 0,5 fl.oz

GROUP  
FACE F | 4515

### PRODUCT

This serum contains a synergistic antioxidant combination of ferulic acid and pure vitamins C and E to better protect your skin from environmental damage caused by free radicals. In addition to its antioxidant protection benefits, this formula improves the signs of ageing and sun damage by reducing the appearance of fine lines and wrinkles, while firming and brightening your complexion.

### BEAUTY BENEFITS

This fast-absorbing hydrating serum protects the skin from free radicals and combat age-related damage. Neutralizes free radicals induced by UV rays and pollution, slows down premature ageing of the skin. Improves radiance, for a luminous and more even complexion.

### APPLICATION

Apply 2-4 drops onto cleansed face and massage gently. Wait for the serum to fully absorb and follow with moisturizers and oil treatments to lock all the good stuff in and improve the effects of the serum. Keep away from direct solar exposure and use sun protection for better results.

### BOTANICAL ACTIVES

#### **Vitamin C (Ascorbyl glucoside):**

Ascorbyl glucoside is a stable form of Vitamin C combined with starch-derived glucose. Vitamin C offers great benefits, such as improvement of uneven skin tone, fine lines, and boosting skin's antioxidant supply and improves skin's environmental defenses. Collagen is formed from vitamin C, which implies the importance of this vitamin for healthy and attractive skin. The production of stable collagen combats wrinkles and ensures uniformity in skin tone and texture.

#### **Ferulic acid:**

Superstar antioxidant that defends skin from environmental assault + sun damage, while also helping stabilize other antioxidants in the formula. Also helps contribute to more even skin tone. Ferulic acid is a phenolic antioxidant that is naturally found in bran and bamboo shoots. Research has shown that it provides its own benefits to skin while also enhancing the stability of other antioxidants, such as vitamins C and E, when paired with them.

#### **Vitamin E (Tocopherol):**

Vitamin E has many properties, but it stand out as being known as the vitamin of youth and beauty. It is an antioxidant that protect cells from all external aggression such as pollution, pesticides and stress, the main cause of premature aging. Vitamin E also contributes significantly to the production of energy.

### INGREDIENTS

Aqua, Propanediol, Cellulose Gum, Ferulic Acid, Ascorbyl Glucoside, Glyceryl Caprylate, Xanthan Gum, Glyceryl Undecylenate, Tocopheryl Acetate, Phytic Acid, Benzyl Alcohol.
