

**Bakuchiol:
a gentle alternative to retinol**

**ANTI-AGING — HYDRATING —
CLEARING — SOOTHING —
BOOSTING**

While retinol (or vitamin A) is an anti-aging superhero, it can also cause irritations to some skin types. Insert bakuchiol: a natural and vegan ingredient that is just as powerful, but a lot more gentle.

Bakuchiol is the star ingredient of our Líkami Plus Fine Lines & Wrinkles serum. A blend that prevents premature aging of the skin. This serum is perfect for use both in the morning and evening, and can be mixed with other Líkami Plus serums according to your skin condition.
